About

weBoost **Office 200 (Directional/Panel)** kit is our most powerful booster for small businesses or warehouses in rural areas. Target the nearest tower with the included outside directional antenna to powerfully boost coverage. Once securely mounted to a wall, the inside panel antenna broadcasts the amplified signal in a wide area. The 5G-compatible, 50-ohm-kit immediately improves coverage on all Canadian carrier networks, including Rogers, Telus, Bell, and more. With XDR technology, the booster will never shutdown and continually optimize signal. All components needed for do-it-yourself installation are included. The Office 200 comes with an industry-leading 3-year manufacturer's warranty and a 30-day money-back guarantee.

This kit is only available at 50 ohms.
